

The '18- Current New Body Ranger XP 1000 Blowhole Instructions

1. Locate the clutch housing intake duct hose. Loosen the clamps holding it onto the clutch cover and remove hose from housing.

2. Install the Blow Hole onto the Clutch housing as shown. Tighten clamp. Then install the intake duct hose onto the Blow Hole assembly. Tighten clamp.

3. Unplug tail light connector and plug in Blow Hole connector in line. Properly route and secure wires and connectors with cable ties as needed to prevent damage.

Disclaimer: Never attempt to adjust or run engine with fan on. Do not stick your fingers into the fan housing as it will cut or dismember. MTNTK Performance is not responsible for damages incurred by using this product or improper installation.
