"Setting the World's Performance Standards"

SLP Performance Muffler for 2015-18 Polaris RZR 900 Trail/XC/S/4, 2017-18 900 ACE ESP XC

Part # 09-116

Kit Contents:

1 - Screen Type Spark Arrestor (#1262123)
1 - Bolt for Spark Arrestor (#999-1083)
1 - Nut for Spark Arrestor (#999-1082)

1 - Instalation Instructions (#015-09116)
1 - SLP Decal (#60-60)
1 - Muffler (#090-116)

Tools Required:

#40 Torx Socket   Ratchet
10mm Socket   8mm Socket
6" Extension Spring Hook Tool (SLP #20-90)

Installation Instructions:

1. Unplug the rear tail lights. Remove the twelve #40 Torx head screws holding the rear bumper on.

2. Remove the passenger side lower bumper bracket. (Refer to Illustration #1)

3. Remove and retain springs from the stock muffler. (SLP Extension Spring Hook Tool # 20-90 is recommended) Remove the stock muffler from the RZR.

4. Verify stock grafoil seal is on head pipe flange. The grafoil seal will sometimes stay in the inlet of the stock muffler upon disassembly.

5. Install SLP muffler and spring into place using the stock springs removed in step #3.

Illustration #1

Remove passenger side lower bumper bracket.

1

6. Re-install passenger side lower bumper bracket removed in step #2.

7. Re-install the stock plastic bumper using the twelve Torx head screws removed in step #1. Plug the rear tail lights in and verify all wiring is secured away from moving parts and hot exhaust components.

8. Remove the stock spark arrestor from the stock muffler and install into one of the SLP muffler outlets. Install supplied spark arrestor into the other SLP muffler outlet using supplied screw and locknut.
Important Note: For proper performance, spark arrestors **Must** be installed.

Note: The 2015-16 RZR 900 opperates best between 7500-7700 RPM @ WOT. If the RPM is not in this range after the SLP Performance Muffler is installed, clutching changes may be required for optimum performance. SLP clutch kit is highly recommend for best performance. Please inquire for more information.
